

Errors in Conquerors and kings.

Updated 15th November 2023

Sorry for the errors in the rule book. It will **only** affect printed copies as pdf copies are easy for us to update. Sorry.

1. Page 69 "Shooting when assaulted" section. **Maximum 3** should be **maximum 4**. *This makes the value 4 consistent throughout the rules. Assaulter (who is receiving the shooting hits) can request a re-roll too. Just as in all other shooting.*
2. page 4. In the pink explanation text box. The word **There** is missing an **e**.
3. Page 17. Auxiliary armoured should have an attached points value of 16.
4. Page 21. In the yellow text box, the word "**mad**" should be "**and**".

Additional clarifications

1. Chariots **do** die by the half base.
